Bachelor's Degree in Computer Science
University of Vienna

Vienna, Austria
10/2009 - 06/2012

SKILLS

Spring/Spring Boot, NodeJS/NestJS, React/React-Native, Angular, GraphQL, Docker, Kubernetes, Scrum, Jira, Jenkins, AWS, GCP, TDD, GitLab CI

EXPERIENCE

Senior Full Stack Developer
Dutch Coding Company

Eindhoven, Netherlands
06/2021 - 03/2024

- Developed a comprehensive software infrastructure overhaul (HMS) using Spring Boot, Oracle DB, Hibernate, AWS Lambda, AWS RDS, AWS API Gateway, containerized microservices with Docker and implemented orchestration with Kubernetes
- Designed and Implemented three Spring Boot microservices with automated tests (unit, end-to-end, and integration) using JUnit, Mockito, and Selenium
- Built three React applications using TypeScript, Next.js, TailwindCSS, and GraphQL, deploying on AWS EC2
- Created a business intelligence tool using JavaEE, Oracle, and D3.js leveraging Core Java technologies including Collections, Concurrency
- Simultaneously managed multiple projects across web and mobile platforms (React Native, Spring Boot, React)
- Actively engaged in all phases of the Agile Software Development Life Cycle, leveraging tools like Jira and Confluence for project management and documentation
- Spearheaded regular code review sessions, offering constructive feedback to peers, fostering a culture of excellence in code quality

Senior Full Stack Developer
Smarter Ecommerce

Vienna, Austria
04/2017 - 05/2021

- Collaborated within a 20+ member Agile Scrum team to achieve project milestones
- Transformed an eCommerce project from Laravel/Vue stack to Spring Boot/Angular stack, utilizing microservice architecture
- Launched 2 secure and powerful backend services with Nest.js, PostgreSQL, AWS Lambda, ensuring productivity and scalability
- Implemented GraphQL schemas and optimized SQL queries to improve application performance in PostgreSQL
- Integrated third-party APIs and services into Java and Scala applications, ensuring seamless communication and data exchange
- Migrated 3 front-end web applications from AngularJS to Angular 12 utilizing Angular CLI for project setup and migration tasks, deploying on GCP
- Directed a team of two developers in creating a frontend reporting system for an insurance client (Angular and Web3.js)
- Guided and mentored two junior developers to enhance their TDD (Test-Driven Development) and BDD (Behavior-Driven Development) skills while actively conducting code reviews

Full Stack Developer
JENTIS

Vienna, Austria
09/2014 - 03/2017

- Successfully migrated four projects from LAMP stack to MERN stack, enhancing user experience
- Designed, implemented and maintained SEO friendly and responsive web applications with React
- Upheld high standards of code integrity by implementing thorough testing(Jest, Cypress) and conducting detailed code reviews

Front End Developer
JENTIS

Vienna, Austria
07/2012 - 08/2014

- Collaborated with backend developers to smoothly integrate frontend components into PHP applications
- Crafted 5 interactive applications with AngularJS, showcasing advanced skills in frontend development
- Designed over 50 screen mock-ups using HTML5, Bootstrap, and CSS3 for client demonstrations
